## Horses and land discovery farm

You will discover the arts of the farrier and smith at the forge, the training of heavy horses in harness and agricultural labour of a bygone era.

### Long comment

Come and see the world of working farm horses on an 18 hectare site in the Poitou-Charente countryside. A breath of fresh air for all with the opportunity of unforgettable encounters with heavy horses as well as riding horses and ponies. A fun way to get to know this wonderful animal.
