## Mouton Village

A “Sheep village “ as well as an animal park – there are 6 hectares of arboretum and a large variety of vegetation, as well as 21 species of sheep from all over the world. Did you know there is a breed of sheep called “rabbit head” and another called “four horns”? Each breed has its own character and habits. Your chance to meet the different sheep – an experience as original as it is constructive.

## Long comment

On the borders of the departments of the Deux-Sèvres and the Vendée, the park of Mouton Village provides a pleasant family day out. Be ready to be surprised by the variety of sheep in their natural environment. In this 6 hectare park with exotic trees and varied vegetation, listen to the story of the sheep. There is an audio guide available in 5 languages.

You will have the opportunity to help with the work of the sheep dog, give a bottle to the lambs and feed the animals in the mini farm.
