Zoodyssée at Chizé

An animal adventure! At Chizé you will discover nearly 500 species of European fauna in the heart of a park of 25 acres which can be explored on foot or by horse-drawn carriage with many exhibitions and educational activities.

Come and spend a wonderful day ... its more than a simple zoo, Zoodyssée park is fun and educational.

Long comment

Zoodyssée is also concerned with animal protection and nature conservation. Zoodyssée is in fact the first ISO 14001 (an internationally recognized environmental standard) certified zoo.

Here you can see the animals in healthy environments: all methods used in the park preserve the environment.
